Subjects

Numeracy

During your P6 year we will be continuing to develop our numeracy skills. We will keep working on addition, subtraction, multiplication and division but we will be using much bigger numbers. We will also learn about fractions, percentages and decimals. It is really important that we keep learning our tables and table facts as this will make classwork easier and help us to calculate answers much quicker.

Literacy

We split Literacy up into three elements: Reading, Writing and Talking and Listening.

This year is about becoming more independent in general, improving fluency and understanding. To help at home try to read for at least 20 minutes a day and ensure you are always practising your handwriting and spellings.

UICT

We learn a wide range of skills in ICT over the year ranging from Word Processing and Desktop Publishing to Coding and Audio-Visual work.

Some RE tasks will be set on SeeSaw this year as we have less time in the classroom!

Anti – Bullying Procedures

As a school, we are very pro-active concerning the issue of bullying. All classes are taught not to engage in such behaviour, but also what to do, should it unfortunately still occur. When an incident is reported, the following will take place:

The class teacher will speak to the bully and the victim involved. Bystanders may also be involved in this discussion. Clear guidance will be given that this type of behaviour should cease immediately. If a child (victim) is distressed at this level – parents will be informed. The parent of the bully will be contacted immediately to ensure the incident is dealt with at home.

Should this type of incident continue, the class teacher will inform the Head of Stage/Vice Principal/Principal. The bully will be punished in line with our Positive Behaviour Policy and parents will be invited into school for a meeting. No child will be permitted to persistently annoy/upset another child in our school.

The positive ethos encouraged helps to eradicate the need for this type of behaviour but when it occurs, both the victim and the bully get help to ensure it does not continue. A bully often has other issues and these will be investigated to ensure this behaviour pattern stops.
